

Reading Strategies

Reading Strategies

To help our children succeed in the future and develop a love of reading, we at William Stockton encourage children to use a wide range of strategies.

In KS1 and EYFS, we encourage children to use the following reading strategies to help them with decoding and become fluent readers.

In KS2, we encourage children to use the following strategies to help them decode, retrieve information, explain the meanings of words and draw inferences.

In KS2, to promote reading, the children use the Accelerated Reader program where children quiz on texts at their own level. All texts read and quizzed on appear in their personal library and this can be accessed using an Ipad.
